ph no : +91 9392486678
Hyderabad, Telangana, India

Objective

A motivated Computer Science Engineering (CSE) student currently in the 3rd year, passionate about software development, machine learning, and innovative technology solutions. Skilled in a variety of programming languages and frameworks with hands-on project experience in real-world applications like criminal detection and outfit suggestion systems.

Education

B.Tech in Computer Science and Engineering   *Vidhya Jyothi Institute of Technology, Hyderabad*
Passing Year: 2026 | **CGPA**: 7.0/10

Intermediate Education   *Prathibha Junior College, Mahabubnagar, Telangana*
Passing Year: 2022 | Achieved: 60%

Skills

- **Programming Languages:** C, Python, Java, JavaScript, PHP

- **Web Technologies:** HTML, CSS, React.js, Flutter

- **Specialized Skills:** Machine Learning, Data Science, Machine Learning in Image Processing

- **Database Management**: MySQL, Mongodb

Internships

- **Data Science Intern at Rinex (Mar–May 2024)**: Hands-on data analysis and model-building tasks using Python.Link

Certifications

- C | Python(cisco) | Java | MySql | Python | Data Science

Projects

- **Real-Time Criminal Detection using CCTV**:
  Developed a CNN-based system for detecting criminals in real-time from surveillance footage.
- **Outfit Suggestion System**:
  An ongoing project that uses machine learning to recommend outfit combinations based on user preferences.
- **Dynamic Website for Train Ticket Booking System:** Developed a full-stack web application for booking train tickets with user authentication, real-time seat availability**.**
